

1. Intramolecular Dehydrogenative Coupling of sp^2 C-H and sp^3 C-H Bonds: An Expedient Route to 2-Oxindoles. Ghosh, S., De, S., Kakde, B.N., Bhunia, S., Adhikary, A., Bisai, A. *Org. Lett.*, **2012**, *14*, 5864-5867.
2. Base Promoted Michael Reaction Concomitant with Alkylation of Cyclic 1,3-Dione: An Efficient Approach to 2-Substituted Vinylogous Esters. De, S., Kinthada, L. K., Bisai, A. *Synlett.*, **2012**, *23*, 2785-2788.
3. Lewis-Acid Catalyzed Friedel-Crafts Alkylations of 3-Hydroxy-2-oxindoles: An Efficient Approach to the Core Structure of Azonazine. Ghosh, S., Kinthada, L. K., Bhunia, S., Bisai, A. *Chem. Commun.*, **2012**, *48*, 10132-10134.
4. Enantioselective Organocatalytic Aldol Reaction Using Small Organic Molecules. Bisai, V., Bisai, A., Singh V. K. *Tetrahedron*, **2012**, *68*, 4541-4580.
5. Intramolecular Direct Dehydrohalide Coupling Promoted by KO^tBu : Total Synthesis of Amaryllidaceae Alkaloids Anhydrolycorinone and Oxoasosanine. De, S., Ghosh, S., Bhunia, S., Sheikh, J. A., Bisai, A. *Org. Lett.*, **2012**, *14*, 4466-4469.
6. Enantioselective One-pot Three-component Synthesis of Propargylamines Catalyzed by Copper(I)-Pyridine Bis-(oxazoline) Complexes. Bisai, A., Singh V. K. *Tetrahedron*, **2012**, *68*, 3480-3486.
7. Disorder in mixed halogen containing benzanilides. Nayak, S. K., Reddy, M. K., Guru Row, T. N., Chopra, D. *CrystEngComm.*, **2012**, *14*, 200-210.
8. Role of intermolecular interactions involving organic fluorine in trifluoromethylated benzanilides. Panini, P., Chopra, D. *CrystEngComm.*, **2012**, *14*, 1972 - 1989. [Cited as Hot Article in CEC].
9. Is Organic Fluorine really "not" Polarizable? Chopra, D. *Cryst. Growth & Des.*, **2012**, *12*, 541-546.
10. Synthesis and an Evaluation of Molecular Conformation and Crystal Packing in Two Substituted 4-Phenylquinolines. Sarveswari, S.; Prasath, R., Mathew, P. S., Chopra, D., Narasimhamurthy, T., Vijayakumar, V. *J. Chem. Cryst.*, **2012**, *42*, 583-587.
11. Advances in Understanding of Chemical Bonding: Inputs from Experimental and Theoretical Charge Density Analysis. Chopra, D. *J. Phys. Chem. A*, **2012**, *116*, 9791-9801 [This article has been selected as Cover Page].
12. Structural Investigation of Weak Intermolecular Interactions in Fluorine Substituted isomeric N-benzylideneanilines. Kaur, G., Panini, P., Chopra, D., Choudhury, A. R. *Cryst. Growth & Des.*, **2012**, *12*, 5096-5110.
13. Isoselenazolones as Catalysts for the Activation of Bromine: Bromolactonization of Alkenoic Acids and Oxidation of Alcohols. Balkrishna, S. J., Prasad, C. D., Panini, P., Detty, M. R., Chopra, D., Kumar, S. *J. Org. Chem.*, **2012**, *77*, 9541-9552.

14. Crystal and Molecular Structure of 2-Amino-3-Ethyl Carboxamido-4-Methyl-5-Carboxy Ethyl Thiophene. Dey, D., Prakash, V., Vasu, Saravanan, J., Chopra, D. *Crystal Structure Theory and Applications.*, **2012**, *1*, 92–96.
15. New Strategies for CO₂-to-Methanol Conversion. Choudhury, J. *ChemCatChem.*, **2012**, *4*, 609–611.
16. Isoselenazolones as Catalysts for the Activation of Bromine: Bromolactonization of Alkenoic Acids and Oxidation of Alcohols. Balkrishna S. J., Prasad, C. D., Panini, P., Detty, M. R., Chopra, D., Kumar, S. *J. Org. Chem.*, **2012**, *77*, 9541.
17. KO^tBu Mediated Synthesis of Phenanthridinones and Dibenzazepinones. Bhakuni, B. S., Kumar, A., Balkrishna, S. J., Sheikh, J. A., Konar, S., Kumar, S. *Org. Lett.*, **2012**, *14*, 2838.
18. A Highly Efficient Copper Catalyzed Methodology for the Synthesis of 2-Hydroxybenzamides in Water. Balkrishna, S. J., Kumar S. *Synthesis.*, **2012**, *44*, 1417.
19. An Efficient Copper Mediated Synthetic Methodology for Benzo[*d*]isothiazol-3(2*H*)-ones and Related Sulfur-Nitrogen Heterocycles. Bhakuni, B. S., Balkrishna, S. J., Kumar, A., Kumar S. *Tetrahedron Lett.*, **2012**, *53*, 1354.
20. Multifunctional Ebselen Drug Function Through the Activation of DNA Damage Response and Alterations in Nuclear Proteins. Azad, G. K., Balkrishna, S. J., Narayanan, S., Kumar, S., Tomar, R. S. *Biochem. Pharmacol.*, **2012**, *83*, 296.
21. KO^tBu Mediated Synthesis of Phenanthridinones and Dibenzazepinones. Bhakuni, B. S., Kumar, A., Balkrishna, S. J., Sheikh, J. A., Konar, S., Kumar, S. *Org. Lett.*, **2012**, *14*, 2838-2841.
22. Toggling between Blue- and Red-Emitting Fluorescent Silver Nano Clusters. Anand, U., Ghosh, S., Mukherjee, S. *J. Phys. Chem. Lett.*, **2012**, *3*, 3605-3609.
23. Deciphering the Role of pH in the Binding of Ciprofloxacin Hydrochloride to Bovine Serum Albumin. Anand, U., Kurup, L., Mukherjee, S. *Phys. Chem. Chem. Phys.*, **2012**, *14*, 4250-4258.
24. Regioselectivity Switch Achieved in the Palladium Catalyzed α -Arylation of Enones by Employing the Modified Kuwajima-Urabe Conditions. Kale, A. P., Pawar, G. G., Kapur, M. *Org. Lett.*, **2012**, *14*, 1808-1811.
25. Direct Substitution of Hydroxy Group of π -Activated Alcohols with Electron Deficient Amines using Re₂O₇ Catalyst. Das, B. G., Nallagonda, R., Ghorai, P. *J. Org. Chem.*, **2012**, *77*, 5577-5583. (Highlighted in ChemInform)
26. Re₂O₇-Catalyzed Three-Component Synthesis of Protected Secondary and Tertiary Homoallylic Amines. Pramanik, S., Ghorai, P. *Chem. Comm.*, **2012**, 1820-1822. (Highlighted in ChemInform)

27. The Direct Reductive Amination of Electron-deficient Amines with Aldehydes: the Unique Reactivity of Re_2O_7 Catalyst. Das, B. G., Ghorai, P. *Chem. Comm.*, **2012**, 48, 8276-8278. (Highlighted in ChemInform)
28. A Optically Transparent Hydrogels from an Auxin–Amino-Acid Conjugate Super Hydrogelator and Its Interactions with an Entrapped Dye. Reddy, M. A., Sharma, A., Srivastava, A. *Chem.-Eur. J.*, **2012**, 18, 7575–7581.
29. Enantioselective sulfa-Michael addition of thioacids to α,β -unsaturated ketones with bifunctionalorganocatalyst. Rana, N. K., Unhale, R. A., Singh, V. K. *Tetrahedron Lett.*, **2012**, 53, 2121.
30. Highly Enantioselective Conjugate Addition of Malonitrile to 2-Enoylpyridines with BifunctionalOrganocatalyst. Molleti, N., Rana, N. K., Singh, V. K. *Org. Lett.*, **2012**, 14, 4322.
31. Enantioselective Synthesis of Coumarin Derivatives by Pybox-Diph-Zn(II) Complex Catalyzed Michael Reaction. Ray, S. K., Singh, P. K., Molleti, N., Singh, V. K. *J. Org. Chem.*, **2012**, 77, 8802.
32. Enantioselectiveorganocatalyticaldol reaction using small organic molecules. Bisai, V., Bisai, A., Singh, V. K. *Tetrahedron.*, **2012**, 68, 4541.
